State Management: Provider, Riverpod, GetX

Backend & Databases: Firebase, Supabase, MySQL, REST APIs, Node.js

Payments & Integrations: Stripe, Google Sign-In, Phone Authentication, API Integration

App Features: Real-time Data Sync, Push Notifications, Multilingual Apps, Offline-First Architecture

Tools & Practices: Git, GitHub, Debugging, Performance Optimization, Code Reviews

Professional Experience

Flutter Developer

Devstrix Pvt. Ltd

Feb 2025 – Mar 2026

Islamabad, Pakistan

- Developed and maintained cross-platform mobile applications using Flutter for international clients.
- Delivered production-ready applications focusing on performance optimization and scalable architecture.

Flutter Developer

Acceltor Ltd

Oct 2024 – Feb 2025

Islington, UK (Remote)

- Built eCommerce mobile application using Flutter and Firebase including product catalog, authentication and order management.
- Integrated REST APIs and Stripe payment gateway ensuring secure transactions.

Flutter Intern

Bytewise Ltd

Jun 2024 – Sep 2024

Islamabad, Pakistan

- Worked with Flutter development team while following Git-based collaborative workflows.
- Participated in code reviews and assisted in building mobile features and debugging issues.

Education

Bachelor of Computer Science

Air University

2020 – 2024

Islamabad, Pakistan

Featured Projects

ShopEase | Full Stack eCommerce Platform with Admin Panel

Flutter/Web, Firebase, GETX

- Developed a production-ready full-stack eCommerce mobile application with Flutter frontend and Firebase backend with implementation of product catalog, cart system, order processing, secure payments, and push notifications.
- Built real-time order management, wishlist system, ratings & reviews, coupons and tax/shipping configuration.
- Developed an admin dashboard for managing products, customers, orders, brands and analytics.

RefreshKicks | On-Demand Shoe Care Service

Flutter, PHP, MySQL

- Built complete full-stack mobile application from ground up with custom PHP backend and MySQL database for service-based business with Stripe payment integration, and automated notification system processing.
- Created comprehensive admin dashboard for order management, user administration, revenue analytics, and business reporting.

DairyBook | Milk Sales Management App

Flutter, Hive

- Developed a Flutter-based business management application for dairy vendors to track milk sales.
- Implemented offline-first architecture using Hive enabling reliable usage in low connectivity areas.
- Added automated PDF receipt generation and organized transaction records by date.

Rythm | Offline Music Player

Flutter, Hive

- Developed a lightweight offline music player with a modern neumorphic UI and optimized performance.
- Implemented library scanning, playlist management, media controls, and local storage using Flutter plugins.
